## Farmers' Week.

During the first week in January, beginning the 3rd and lasting through the 6th, the Agricultural College of the State University at Lexington, has arranged to observe "Farmers' Week". This will be the best opportunity ever offered for farmers and stockmen of the State to avail themselves of the benefits of the Agricultural College. The Swine, Beef Cattle, Horse, Dairy Cattle, and Sheep Breeders' Associations of the State will hold their annual conventions there on successive days, each devoting a half day to speeches, business, etc. and the other half to judging work. The State Corn Growers' Association, the State Corn Show and Corn School will also be held at the College during the week. Liberal premiums are offered in the various classes in the corn show and equally liberal premiums for farm butter, creamery butter, farm milk and for certified milk. The unexcelled stock of the College Farm and of the magnificent Elmendorf Farm will be freely used for the judging work, etc.

Rates of one fare plus twenty-five cents for the round trip have been secured over all roads. The best authorities in the country on the various classes of stock, etc., have been secured for the week. All is absolutely free.

A pleasant or more profitable week for the farmers of Kentucky could not possibly be arranged. Particulars, premium lists, etc., may be obtained by dropping a card to M. A. Scovell, Director, Lexington, Ky.

Henderson county claims to be the banner apple growing county in the State a bumper crop being grown there this year of the finest quality.

## Kentucky's Population Announced.

According to the official census figures given out by the authorities at Washington, Kentucky has 2,289,905 population. Many of the counties in the State showed a falling off as compared with ten years ago, and general disappointment is expressed.

The population of Powell county is given as 6,268 against 6,443 ten years ago, a loss of 175. Clay City gained in population just 100 in ten years, while Stanton has also gained probably that much, which makes the total loss of about 375 from the county outside of its two towns. This shows that even down to Powell, the city wayward spirit prevails, which must further prove the cause for the high price of all farm products.

In our neighboring counties Estill has a population 12,273 against 11,669 in 1900, a gain of 604; Clark 17,987 against 16,694 in 1900 or a gain of 1,293; Montgomery 12,868, against 12,831 in 1900, a gain of 37; Menefee 6,153 against 6,818 in 1900 or a loss of 665; Wolfe 9,864 against 8,764 in 1900 a gain of 1,100; Lee 9,531 against 7,988 in 1900 a gain of 1,543.

Many of the central counties show a great loss in population while the greatest gains are made in the mountain counties. Bell county makes the greatest percentage of gain of all the counties while Pike, White and Muhlenberg are close on to it. Jefferson, including the city of Louisville, makes the greatest total gain, which is 80,371.

## Not Good

for everything. Sutherland's Eagle Eye Salve is good for nothing but the eyes. If you use it and are not satisfied come back and get your 25c. You be the judge.

## Where the Trouble Is.

We take much pride in the growth of twenty millions population in this country the past ten years, but when it is learned that sixteen millions of this gain is in the cities and only four millions in the country, we see something is going wrong with the increase we have made. Too many consumers and not enough producers. And right here we have the whole secret of the high cost of living. What we wear however, from this same reason should be lower.

An exchange agrees with the Times on this question and thusly prescribes a remedy which we believe would be effective:

"High cost of living!" Get out in the country, you darn lazy town rascals and go to work and make you a living and quit loafing around town and asking Congress to make laws to force the honest farmers to feed you at half price. Get out."

## Prompt Settlement.

The widow of Shelt Johnson, of Prendergast, Tenn., has received a check for \$1,000 through the Clay City camp of Modern Woodmen, being the amount of insurance due her from this order. Mr. Johnson has been dead less than a month and the prompt payment of this claim shows the reliability of this order. Mr. Johnson was a former member of the local camp which was instituted in June, 1909. The total cost to him has been less than \$10.00. A very cheap though safe insurance. The order should have a hundred members in Clay City.

S. T. Brashear, of Hart county, this year from one acre of land says he gathered 103 bushels of corn, fifty shocks of tops, 500 bundles of blade fodder, twelve bushels of cow peas, got five loads of pumpkins, killed nineteen rabbits and has now five covies of birds waiting to be slaughtered.

A Mercer county dealer shipped last week 8,000 pounds of butter all bought in that county. Powell county doesn't produce enough butter for its own use and that is another reason why Powell is growing poorer while other counties are growing richer.

The internal revenue collections in Kentucky during the last fiscal year were \$32,260,278.47, ranking third in the payment of this tax. Kentucky produced nearly 37,000,000 gallons of taxable spirits. Illinois is first with a scant 1,000,000 gallons more.

The question frequently arises as to how much white blood a negro must have before he can be termed a white man. The District Court of Appeals at Washington has decided that one-sixth of negro blood classifies the person as colored.

J. D. Patton and J. T. Potts have opened a new barber shop in this city. They are located in the old drug store building.

Antiseptic remedies destroy disease germs, Dr. Bell's Anti-Pain is an antiseptic remedy for external and internal pains, relief is almost instantaneous. Sold by all dealers.

## A Curious Bird.

Monday evening there was a large bird killed by Morgan McKinney in the creek between his home and Mr. George Bush's on Hardwick's Creek. The bird was about the size of a goose, measured 7 feet, 9 inches from one end of its wing to the other, over 4 feet from end of bill to tail, its bill being 12 in. long and about 1 1/2 in. broad with web feet, resembling that of a duck, short legs, white feathers, except ends of wings were black, under its bill hung a bag or sack which would hold at least one gallon. Owing to the extreme long bill and wings this bird is not supposed to be a native of America.

Anyone desiring to see this bird may do so by calling at Mr. McKinney's at Vaughn's Mill.

The Valley View Argent will move to Nicholasville. Bro. Sowers has made a success in the newspaper business at Valley View, and when taking into consideration the importance of the two towns he will do a great deal better at Nicholasville.

The protracted services at the Presbyterian church has been well attended, and much good seems to have been accomplished. Twenty-one confessions were made and the laity greatly revived. The meeting closed Tuesday night.

Mrs. T. J. Fletcher is very ill with the grip.

You Can Always Get the best cough medicine if you ask for Dr. Bell's Pine-Tar-Honey and look for the bell on the bottle. Guaranteed to give satisfaction. Sold everywhere.

## A Sure Cure.

A haggard looking woman, speaking with a strong Irish brogue walked into a West Side drug store in New York the other day and asked for a bottle of Dr. Quack's Consumption Cure. While the clerk was wrapping the package, she conversed volubly of Mike, her husband, who was sick with consumption. She said one of her neighbors, Mrs. Casey has told her that the bottle of medicine she held in her hands would surely restore Mike to health. So she had saved 50 cents from the scant earnings she made over the washtub in order that her husband might have a chance. As she turned to go away, her eye was attracted by a sign upon which was this legend in big red letters, "Buy Red Cross Christmas Seals and help Cure Consumption. A penny for a seal."

From the few cents in the palm of her hand, the woman drew out a nickel and holding it to the clerk, said, "O'p'll take five of them. Sure, with this bottle of medicine, and them things stuck on Mike, he'll be well in a wake."

## Vaughn's Mill.

Miss Fannie Mize, who has been visiting relatives near Winchester, returned home Monday.

Mr. Riley Hurst, of Vaughn's Mill, started for Sumner, Wash. Monday evening. He has two brothers there.

Mr. Charley Clark, is being greatly troubled with a felon in his hand which is causing him to lose much sleep.

Mr. Grant Baker and family visited relatives on Little Creek from Saturday evening until Sunday evening.

Mr. Melvin Gravitt, the old reliable farmer of Little Creek, has been very low for the past week. We wish him a speedy recovery.

Sunday, Dec. 11 is the regular appointment of Bro. Fryman from Winchester at the Methodist Church. We hope to see a large crowd present.

Mr. G. W. Bush, the merchant at Vaughn's Mill, has received a nice line of Xmas goods. You are invited to give him a call before buying elsewhere.

Messrs. Winfred Davis and Joe Clark have rented from W. L. Jackson his farm for the coming crop year. We wish the boys success in their undertaking.

Miss Fannie Gravitt and Mr. Joe Shimfessel were married Thursday, Dec. 1st near Lexington at the home of the groom. Mr. Mack and Ernest Gravitt, brothers of the bride and Wm. Shimfessel, of Hardwick's Creek, uncle of the groom, attended the wedding.

**Dr. Bell's Antiseptic Salve**  
Good for all Skin Diseases.

The singing on Little Creek showed up nicely Sunday. The people took their dinners and spent the day at the school house, in spite of the deep snow a large crowd was present, several came in sleighs. They sang many hymns, the day was much enjoyed. The teacher announced a free exhibition the last night, which is Thursday. Everybody cordially invited.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

"Many people who subscribe for newspapers do not leave explicit directions with the publisher to discontinue the paper at the end of time. The time goes on and after a while a bill is sent. It may be for one, two or three years, then comes back the words, 'I only signed for it one year.' Then there is another class who do practically the same trick and when the bill is sent they refuse it at the postoffice and write and tell the publisher to discontinue there paper 'as my time is out' and not offering to pay arrearages, as they should do.—Exchange.

### Saved From Awful Death.

How an appalling calamity in his family was prevented is told by A. D. McDonald, of Fayetteville, N. C., R. F. D. No. 8. ## Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

### Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this *non-secret* remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

### What the Old Lady Said.

In a Kentucky town not long ago the village belle was being united in the holy bonds of matrimony with the young man of her choice and when the minister asked the bridegroom if he promised to do all the nice things required of a good husband the young man responded with a loud and emphatic, "I do!"

"Well I'd rather see it than hear tell of it," ejaculated the bride's mother.

In so saying, the old lady voiced the "show-me" sentiment that is so rapidly developing among the American people.

The time was when the people would listen open-mouthed to any sort of spread-eagle oratory but nowadays there is a demand for proof. Cheating on the part of orators becomes harder as more people learn to read their Bibles, newspapers and magazines understandingly and to think for themselves. Ignorant and insincere speakers are being discredited all over the land, although some are still making money by appeals to the emotions of weak men and women.

### Revolution in Farming.

Forty years ago the Blue Grass of Kentucky was celebrated among other products, for its hemp. Later, Burley tobacco became the staple crop. Now, owing to local conditions, brought on by the tobacco trust, decline in prices, night riding, etc., tobacco is going out of favor. The blue grass pastures of Kentucky have always been celebrated for fattening cattle in the summer-time, and each fall sees millions of dollars paid to the farmers of that section for export cattle. The question arises, how to best utilize the valuable farm lands formerly planted to hemp and tobacco. A few wealthy men have solved the problem satisfactorily to themselves by planting corn and sorghum and putting it in solos for winter feeding, turning out each year two crops of fat cattle, one in the fall, fed on grass, the other, fed on silage and marketed in the spring. These pioneers are reaping rich returns, both in making a good profit on the feeding operation and in returning to the soil an abundance of barn yard manure.

It is interesting to observe the revolutions in farming as they roll around. What is good for this favored section is equally true of the cotton states of the South.

The United States has long held first rank as an agricultural country, but now it is rather amazing to consider it as the greatest manufacturing country in the world. Yet when we export \$800,000,000 worth of finished products in one year, that is the consideration which we must be given. This nation stands today first in agriculture and first in manufactures. It has leaped to the front in the latter respect within the last few years and these nations that are bewildered at such things as a 3,000,000,000 bushel corn crop are also astonished at our export trade.

The closing session of the Sixty-first Congress opened at noon Monday with Speaker Cannon in the chair.
